The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and, in management's opinion, have been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below.

Revenue Recognition

The organization follows the deferral method of accounting for contributions.

Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Property and Equipment

Property and equipment are recorded at cost. Contributed property and equipment are recorded at fair value at the date of contribution. Amortization is provided using the following methods and rates intended to amortize the cost of assets over their estimated useful lives. The rates and methods are as follows:

Equipment	5 years	straight-line
Computers	3 years	straight-line

Contributed Goods and Services

Volunteers contribute many hours per year to assist the organization in carrying out its services and programs. Because of the difficulty of determining their fair value, contributed services are not recognized in the financial statements. The organization also received insurance coverage from the City of Calgary. The fair value of this contribution was not able to be determined and was not recognized in the financial statements.
