Opera in the 21st Century

Opera at Banff Centre is a performance-based, collaborative training experience for emerging opera professionals that truly challenges the conventions of opera performance, production, and design. The focus is to develop early career opera professionals with the skills and experience to take them to the next level of their careers in an evolving industry.

In 2023, Banff Centre is excited to announce multi-disciplinary programs, one of them taking place at the **National Arts Centre** in Ottawa for Module 1 and all culminating in an additional 3 weeks of programming at **Banff Centre for Arts and Creativity** for Module 2.

Apply today at banffcentre.ca
