

Rozsa Admin Fundamentals Training

The Rozsa Admin Fundamentals Training (RAFT) program is for those who have been working or volunteering for an arts organization and are looking to build their knowledge, individual artists of all disciplines who want to learn about organizational structures, and board members at arts organizations seeking to deepen their governance knowledge.

Upon successful completion of the Rozsa Admin Fundamentals Training (RAFT) program, you will be able to:

- Explain the real-life challenges and opportunities of being a not-for-profit arts organization.
- Review a financial statement presented at a not-for-profit board.
- Evaluate an organization's mission, vision, and value statement.
- Identify the main components that make up a strategic plan.
- Discuss the importance of doing evaluations.
- Construct a project plan based on answering the questions who, what, where, when, why, and how much.

RAFT is a 20-hour program that will be delivered virtually, covering the basics of arts management theory and practices. 17.5 hours will be in real time (synchronous) and 2.5 hours will be asynchronous (self-directed homework/group work).
